- (3) A person's depreciable assets shall be placed into separate pools for each class of asset, and the depreciation deduction for each pool is calculated according to the following formula -

$$\mathbf{A \times B}$$

Where -

A is the written down value of the pool at the end of the year of income; and

B is the depreciation rate applicable to the pool.

- (4) The written down value of a pool at the end of a year of income is the total of -

reduced, but not below zero, by the consideration received from the disposal of assets in the pool during the year of income.

- (13) Where a road vehicle to which subsection (12) applies is disposed of, the person is treated as having disposed of each of the assets specified under that subsection and the consideration received on disposal is apportioned between the two assets based on the ratio of the cost base of each asset as determined under that subsection to the actual cost base of the asset.

(14) In calculating the amount of any gain or loss arising on disposal of an asset specified in subsection (12)(b), the cost base of the asset as determined under that paragraph is reduced by the depreciation deductions which would have been allowed to the person if the asset –

- (a) was a depreciable asset being a road vehicle; and
- (b) the asset was the only asset in the pool.

(15) In this Section, “commercial vehicle” means –

1. Treatment of Expenses and Losses incurred by Financial Institutions on Loans given out for Agricultural purposes

The Income Tax (Amendment) Act 2005 inserted a provision under Section 21 that exempts from tax interest earned by financial institutions on loans granted for agricultural purposes.

Under Section 22(1)(a) ITA, expenses and losses are allowed only to the extent to which the expenditures or losses were incurred in the production of income included in gross income. Expenses and losses incurred in producing income that is exempt from tax are therefore not allowable for tax purposes.

Below is the recommended tax treatment of expenses related to deriving exempt bank interest, and procedures to be followed:

(a) Direct Finance Cost (Interest on borrowed funds)

- (i) Interest payable by a Financial Institution on borrowed funds should be apportioned between loans for agricultural purposes and loans for other purposes using the formula –

Interest relating to agricultural loans =

$$\frac{A+B}{C+D} \times E$$

Where,

- A** loans (principal) for agricultural purposes outstanding at the beginning of the Year;
B loans (principal) for agricultural purposes outstanding at the end of the year;
C borrowed funds at the beginning of the year;
D borrowed funds at the end of the year;
E the total interest cost for the year.

- (ii) The portion of interest obtained using the formula above is not tax allowable.

(b) Provisions for Bad and Doubtful Debts

Specific provisions as well as general provisions made in respect of agricultural loans are not allowable for tax purposes as per provisions of Section 22(1)(a).

(c) Overheads and other Expenses

- (i) Overheads are allowed wholly because they cannot be directly traced to agricultural loans, and possible bases of apportionment are highly subjective.
 - (ii) Administrative and other establishment expenses are also allowed wholly because of the difficulty in obtaining a suitable base for apportionment.
- (d) Any other expenses that can be separately identified and is wholly related to agricultural loans is not allowable for tax purposes.

(e) Transitional Loans

This refers to loans that had already been advanced by financial institutions for agricultural purposes before 1st July 2005.

Interest accruing to a financial institution out of this category of loans after 1st July 2005 is exempt, while the related expenses are not allowable for tax purposes.

- (f) Financial Institutions should submit with their final returns and accounts the following information –
- (i) A breakdown of specific provisions between those made against loans for agricultural purposes and those made against loans for other purposes;
 - (ii) Total interest cost for the year;
 - (iii) Opening and closing balances of the principal in respect of loans advanced for agricultural purposes; and

- (iv) Opening and closing balances of total interest-incurring funds available to the financial institution for lending.

(g) Definitions

"Agricultural loan" means a loan for primary production purposes of farming, forestry, fish farming, bee keeping, animal and poultry husbandry, or similar operations.

"Financial Institution" is defined in the ITA.

2. Exemption of Income of a Collective Investment Scheme

The income of a Collective Investment Scheme (CIS) is exempt from tax under Section 21(1)(t) of the ITA to the extent of which the income is distributed to participants in the Collective Investment Scheme.

A Collective Investment Scheme is defined in Section 3 of the Collective Investment Scheme Act to mean –

"...any arrangement with respect to property of any description, including money, the purpose or effect of which is to enable persons taking part in the arrangement, whether by becoming owners of the property or any part of it or otherwise, to participate in or receive profits or income arising from the acquisition, holding, management or disposal of the property or sums paid out of such profits or income."

This definition is adopted for purposes of the ITA under Section 2.

To qualify as a CIS under the above definition, the following conditions must be satisfied:

- (a) The participants in the scheme must not have day to day control over the management of the property in question;
- (b) The participant's contributions and ultimate income/profits in relation to a property as a whole (not as separate parts unless there's free exchange or rights) must be pooled;
- (c) The property must be managed as a whole by the operator of the scheme or on his behalf.

Arrangements that do not meet the above conditions and those outlined under Section 3(5) of the CIS Act do not constitute a CIS for the purposes of the ITA and would not enjoy the exemption.

3. Exempt Organisation

For purposes of the definition of exempt organisation in Section 2 of the ITA, in order to be considered –

- (a) “charitable” – an organisation must be proved to provide services for public benefit falling under any of the following categories:
 - (i) the relief of poverty;
 - (ii) the advancement of education;
 - (iii) the advancement of religion; or
 - (iv) other purposes beneficial to the community within the legal understanding of charity.

Whereas the public benefit in the above categories can easily be assumed, an organisation claiming to be charitable under category (iv) shall positively demonstrate the public benefit provided.

- (b) “an institution of public character” – the benefit provided must be to the public at large or at least to a sufficient section of the community.

4. Widely Issued – Section 83(5)(a)

For interest paid by a resident person in respect of debentures to be exempt from tax, the “public offer test” must be met. This means the debentures, debenture stock, mortgage stock, loans, loan stock or similar instrument acknowledging indebtedness whether secured or not, must have been issued –

- (a) to a reasonable number of people operating in a capital market;
- (b) to several investors with a history of previous acquisition of debt instruments or debentures;
- (c) as a result of negotiations for the loan in a public forum used by financial markets dealing in debt instruments; or
- (d) to a dealer, manager or underwriter for the purpose of placement of the debt instrument.

The issuance of debentures should therefore be non-exclusive and preferably in a capital market arrangement that caters for public involvement.

5. "Partly Used" – Section 27(10) and 2(u)

The phrase "partly used" relates to use of assets for both business and non-business purposes.

1. Withholding Tax on Payments for Goods and Services – Meaning of "aggregate" and "gross amount" under Section 119(1) ITA.

- (a) For purposes of Section 119(1) ITA, the word "aggregate" is interpreted to mean the total payments to a supplier in respect of a supply of goods or services as provided for in a contract. The threshold of one million shillings is therefore in respect of the total contract value. This implies that separate supplies which constitute one contract of one million shillings and above are subject to 6% WHT irrespective of whether the amount paid at any given time in respect of the supply is less than the threshold provided under Section 119(2).
- (b) Gross amount of the payment under Section 119(1) refers to the actual consideration for goods or services exclusive of any tax (i.e. VAT or Excise Duty)

2. Exemption for 6% WHT on Sales by Insurance Brokers/Agents

Section 119(1) gives the Government of Uganda, a Government Institution, a local authority, any company controlled by the GOU or any person designated in a notice issued by the Minister the mandate to withhold at a rate of 6% on the gross amount payable to any person in Uganda for the services or goods supplied. This includes payments to insurance brokers/agents.

In exercising this provision, the WHT agents have been withholding tax at 6% from payments of premiums to brokers/agents. Inevitably, the WHT is levied on the gross payments to the agent who may be entitled only to a part of the sale proceeds as a commission, yet the WHT credit can only be claimed by the agent and not the principal on whose behalf the sales are made.

Therefore, in order to iron out the anomaly, 6% WHT shall not apply on payment of insurance premiums.

3. 6% WHT on Sale of Air Tickets

Section 86 ITA imposes tax on every non-resident person carrying on the business of air transport operator who derives income from the carriage of passengers who embark in Uganda at a rate of 2% of the gross income. Section 87 provides that the tax is a final tax if the tax payable has been withheld by a withholding agent under Section 120 and paid to the Commissioner under Section 123.

Section 119(1) gives the Government of Uganda, a Government Institution, a local authority, any company controlled by the GOU or any person designated in a notice issued by the Minister the mandate to withhold at a rate of 6% on the gross amount payable to any person in Uganda for the services or goods supplied. This includes payments to travel agents.

However, it is noted that travel/ticketing agents receive money for air tickets on behalf of the airlines which are already taxed under a different arrangement.

Therefore, in order to iron out this anomaly, 6% WHT shall not apply on payments for air tickets.

1. Cessation of Tax Credit Certificates in respect of Final Withholding Tax

Section 128 (3) provides that tax withheld by a withholding agent from a payee is deemed to have been paid by the payee/supplier

and is credited against the tax assessed on the payee/supplier for the year of income in which the payment is made. The payee/supplier is entitled to a Tax Credit Certificate (TCC) with which he/she makes claim of the tax withheld.

However, in respect of withholding tax that is final tax under section 122 of the Income Tax, the tax withheld cannot be claimed as credit against any other tax liability in Uganda.

Therefore, with effect from 1st May 2008, URA will no longer issue Tax Credit Certificates in respect of final tax namely;

- (a) Tax that is withheld on payment of interest by a financial institution to a resident individual, unless the individual receives it in the capacity of a trustee (section 117);
- (b) Tax that is withheld on payment of interest by a financial institution to resident retirement fund (section 117);
- (c) Tax that is withheld on payment of interest by a financial institution to an institution or organization which the Commissioner General has exempted from income tax under section 2(bb);
- (d) Tax that is withheld on payment of interest on treasury bills (where the interest is payable on Treasury Bills that mature/matured on or after 1st July 2006); and
- (e) Tax that is withheld on payment of dividends to a resident individual (section 118);

2. Boundaries of Kampala and Entebbe Areas for Income Tax Purposes

Section 28 of the Income Tax Act provides for Initial allowance and subsection (1)(a) provides that;

"where the asset is placed in service outside an area prescribed in part IV of the sixth Schedule to this Act, seventy five per cent of the cost base of the property at the time it is placed in service: or

(b) in any other case, fifty per cent of the cost base of the property at the time it is placed in service."

And Part IV of the sixth schedule provides as hereunder,

"The following areas are prescribed for the purposes of section 28 - **Kampala, Entebbe**, Namanve, Jinja, and Njeru."

It has been noted that there has been a contention as to the boundaries of Kampala and Entebbe areas for purposes of the above quoted provision. This therefore is to clarify on what Kampala and Entebbe Tax Districts are composed of.

Kampala area for Income Tax purposes and in particular the above quoted provision is composed of the five political divisions namely;

- 1) Kampala Central;
- 2) Nakawa;
- 3) Rubaga;
- 4) Makindye and
- 5) Kawempe

Any area outside the above does not comprise Kampala for purposes of the Income Tax Act provision quoted above.

Entebbe area for tax purposes shall comprise of the administrative divisions of Entebbe Municipality which are divisions A and B. The divisions are further divided into four parishes that is,

- 1) Kigungu Parish;
- 2) Kiwafu Parish;
- 3) Central Parish and
- 4) Katabi Parish

Any area outside the above does not comprise Entebbe for purposes of tax.

For purposes of uniformity, ease in operation and implementation of Section 28 of the Income Tax Act, Kampala and Entebbe areas shall be defined as above.

1. Definition of the Terms “Medical, Dental and Veterinary Equipment” for VAT Purposes.

Paragraph 1(q) of the Second Schedule to the VAT Act provides that the supply of dental, medical and veterinary equipment is an exempt supply.

Definition of Equipment

- (a) The Act does not define the term equipment. This PN is therefore intended to provide the meaning of what should be treated as medical, dental and veterinary equipment.
- (b) Medical, Dental and Veterinary equipment is any equipment or device which has features or characteristics that identify it as having been designed to be used alone or in combination for a medical, dental or veterinary purpose or function such as the diagnosis, prevention, monitoring, treatment, alleviation of or compensation for an injury and alleviation of disease in human beings and animals.
- (c) The equipment/device will usually be durable although certain disposable items such as syringes may still be equipment.
- (d) Based on the above definition, medical, dental and veterinary equipment covers a wide range of goods from simple items like bandages and syringes, to complex machinery such as X-ray machines as well as parts and accessories for use with the equipment.

- (e) Parts and accessories will be treated as medical equipment/device if they are intended specifically by manufacturers to be used together with the parent medical device.
- (f) Parts are integral components without which the equipment is not complete; while accessories are optional extras which can be used to improve the operation of the equipment or enable it to be used to better effect. Accessories do not include items which have an independent function.
- (g) For purposes of clarity, medical, dental and veterinary equipment shall include articles under heading 9018 – 9022 of the Harmonized Systems Code (HS Code), contact lenses, spectacle lenses (excluding frames) and those that will be treated as such based on the classification given by the National Drug Authority.

Exclusions

- (a) Excluded from the definition are chemical reagents and medicines, mosquito nets, cleaning and sterilizing fluids, disinfectants, cotton wool (other than sterilized), hospital linen, blankets, drug trolleys, gloves (other than surgical), gymnasium equipment (other than specialized physiotherapy equipment), clothing (other than specialized ones such as surgical masks and gowns), lockers, bathroom scales.
- (b) This definition shall also exclude general use items used to equip or facilitate a medical facility or items that can be put to diverse uses which are not necessarily medical uses e.g. television sets, telephone sets or a fan used in a medical ward will not be considered medical equipment.

2. Definition of Medicines and Drugs for VAT purposes

- (a) Paragraph 1(c) of the Third Schedule VAT Act provides that the supply of drugs and medicines is a zero-rated supply. However, drugs and medicines are not defined.
- (b) Medicines and drugs shall be interpreted to be any substance or article (not being an equipment/device, instrument, apparatus or appliance) which is for use wholly or mainly in either or both of the following ways –

- (i) by being administered to human beings or animals internally or externally for medical purposes; or
- (ii) as an ingredient in the preparation of a substance or article to be so administered.
- (c) Therefore, medicines and drugs are any substance, preparation or mixture of substances used or intended for use in diagnosing, or treating of disease, disorder or abnormal physical state or the symptoms thereof in human beings or animals.
- (d) The World Customs Organisation (WCO) uses the term “medicament” in reference to medicines and drugs.
- (e) A medicament is an agent that promotes recovery from injury or ailment. Medicaments are impregnated or coated with pharmaceutical substances for therapeutic or prophylactic use in medical, surgical, dental or veterinary purposes.
- (f) For purposes of VAT and clarity, medicines and drugs shall include surgical dressings, biological products such as vaccines and blood products, as well as items under headings 3004 and 3005 of the HS Code.

Exclusions

- (a) The definition of medicines and drugs shall not include preparations commonly used for toilet purposes, or in connection with the care of the human body, whether for cleansing, deodorizing, beautifying, preserving or restoring whether or not possessing therapeutic or prophylactic properties e.g. medicated soaps, shampoos, toothbrushes, dental pastes and creams, facial and body creams, hair removing creams, aromatherapy oils, mouth washes, lip balms, deodorants, antiperspirants, disinfectants. [The definition shall also not include lozenges and all items under headings 3301 to 3307 of the HS Code]
- (b) Nutrition/Food supplements are not drugs or medicines for VAT purposes because they are intended to supplement one’s dietary requirements and do not contain active pharmaceutical substances and as such shall be treated as taxable supplies for VAT purposes.

1. VAT treatment of Computer Printers

Paragraph 1(v) of the second schedule of the VAT Act provides that, “the supply of computers, printers, parts and accessories falling under heading 84.71 and 84.73 of the harmonized coding system of the customs law is exempt;”

Following the recent changes in the Customs coding system i.e. from the Harmonized Commodity Description and Coding System 2002 (HS 2002) version to HS 2007, computer printers became classifiable under two tariff headings- 84.71 (when presented with a computer) and 84.43 (when presented separately), with specific HS codes as 8471.60.00 and 8443.32.00.

As a result of the new coding, the current provisions of paragraph 1 (v) of the second schedule, exclude computer printers classified under HS Code 8443.32.00.

This position is a mismatch arising from the change in the Customs coding system, but not a change in policy.

Therefore, the purpose of this practice note is to clarify that, the supply of printers as provided for in paragraph 1 (v) of the second schedule of the VAT Act, includes desktop printers or printers presented separately specifically under subheading 8443.32.00 of the East African Community Common External Tariff.

2. Boundaries of Kampala District for VAT purposes

The Value Added Tax (Amendment Act) 2008 deleted “and Entebbe” from the Second Schedule paragraph (u) under Exempt Supplies to read –

“the supply of accommodation in tourist lodges and hotels outside Kampala District;”

This practice note is intended to clarify on what constitutes Kampala District for VAT purposes to bring about uniformity and ease the administration of VAT collection.

Kampala District shall constitute the five political divisions namely;

1. Kampala Central; 2) Nakawa; 3) Rubaga; 4) Makindye; and 5) Kawempe.

Any area outside the above political divisions does not fall under Kampala District for VAT purposes.

VAT treatment of supply of goods as part of the transfer of a business as a going concern

Paragraph 1(k) of the second schedule of the VAT Act provides that, “the supply of goods as part of the transfer of a business as a going concern by one taxable person to another taxable person is exempt.”

The “transfer of going concern” is defined in paragraph 2 (e) of the second schedule to include “the disposal of any part of a business

which is capable of separate operation.” However, this definition is not sufficient in explaining what a sale of a business as a going concern entails.

The purpose of this practice note therefore, is to clarify what constitutes the supply of goods as part of the transfer of a business as a going concern for purposes of section 19 and paragraph 1 (k) of Schedule II of the VAT ACT, Cap 349.

The supply is VAT exempt if all of the following requirements are met;

1. The supplier disposes of any part of a business which is capable of separate operation (for example a branch of a business).
2. Both the seller and the buyer must be registered as taxable persons for VAT.
3. The Agreement of Sale which should be duly executed must make it absolutely clear that the property is a whole or part of the Seller's business which is being sold as a going concern.
4. Activities of the business must continue after the business is transferred to the purchaser for at least two (2) years.
5. The supplier supplies to the recipient all of the facilities that are necessary for the continued operation of the enterprise being sold. This may include premises, plant & equipment, stock in trade, intangible assets such as goodwill, contacts and licenses, and all the operating structure and process of the enterprise.
6. The supplier carries on or will carry on the business until the day of the supply (whether or not as a part of a larger business carried on by the supplier) and that the nature of the business will not change after the transaction.
7. The transferor and transferee shall within 21 days of the transfer, notify the Commissioner General in writing of the details of the transfer in accordance with section 19 (2) of the VAT Act, Cap.349.

Note: A mere disposal of an asset used by the business is not a supply of a going concern.

DOUBLE TAXATION AGREEMENTS (DTA'S)

Overview

If an individual or a corporate entity is resident in another country but has income from a source in Uganda, such a person may be liable to pay tax in Uganda and in that other country where the person is resident. This is because each country has a sovereign right to tax income using its own set of tax rules and this could lead to a situation where the same income may suffer tax twice. This state of affairs is referred to as "international double taxation". In order to mitigate the effects of international double taxation, countries normally enter into an agreement for the avoidance of double taxation on a bilateral basis.

Double taxation agreements, sometimes known as double taxation treaties, are designed to protect against the risk of double taxation i.e. where an individual or a corporate entity is taxed twice by virtue of the same income being taxable in two states.

The main objective of a DTA is to provide certainty regarding when and how tax is to be imposed in the country where the income-producing activity is conducted or payment is made. The agreements are normally two pronged, namely –

- (i) It normally requires that the country where the gain arises deducts taxation at source ("withholding tax") and the taxpayer receives a compensating foreign tax credit in the country of residence to reflect the fact that tax has already been paid; or in some cases, it is provided that the tax is to be paid in the country of residence and be exempt in the country in which it arises or partial relief is granted.
- (ii) It requires the two countries to exchange information about such declarations and investigate any anomalies that might indicate tax evasion.

Relationship between a Tax Treaty and Domestic Law (ITA)

A term defined in a DTA takes precedence over a similar term in the tax law of a contracting state. Terms not defined have the meaning which it has under the tax law of a contracting state.

As a general drafting rule, the provisions of tax treaties are intended to take precedence over any conflicting or inconsistent provisions in domestic tax law. Section 88 of the Income Tax Act

provides that international agreements between the Government of Uganda and the government of a foreign country shall have effect as if the agreement was contained in the Act, and the terms of the international agreement prevail over the provisions of the Act to the extent to which the terms of the agreement are inconsistent with the provisions of the Act. The only exception to the superiority of international agreements over domestic tax law relates to anti-avoidance provisions under section 88(5), 90 and 91.

Section 88(5) denies the benefits of a DTA to a tax planning scheme of treaty shopping executed by interposing a company between two other companies so as to obtain a tax advantage. It provides that a person who must benefit from concessions offered by a DTA is the beneficial owner of the privileged receipt.

In brief, the DTAs provide for the taxation of different categories of income as follows:

- 1) **Business Profits** – Taxed at source (Uganda) only if the business of a non-resident person is carried on through a Permanent Establishment in Uganda.
- 2) **Tax on Dividends, Interest, Royalties and Technical fees** is taxed at source (Uganda) by way of withholding but the rate is normally capped as per the table below.
- 3) **Income from Immovable Property** – Taxed at source (Uganda) if the immovable property is situated in Uganda and a credit allowed in the country of residence.
- 4) **Capital Gains** – Taxed where the immovable property is situated. The rules on movable property vary from DTA to DTA. Refer to specific DTAs.
- 5) **Shipping and Air Transport** – Profits derived from the operation of aircraft or ships in “international traffic” are taxed in the country of residence.
- 6) **Independent Personal Services** (i.e. Physicians, Lawyers, Engineers, Architects, Accountants etc.) – Taxed on the basis of Residence or Non-residence.
- 7) **Dependent Personal Services** (i.e. Employment, other than pensions, Director’s fees and remuneration for government services) – Taxed on the basis of where the employment is exercised, or where services are provided.

Note that Provisions in each DTA may differ. The above notes only provide a summary of the general principles in the key articles of a typical DTA. You may want to refer to the relevant DTAs for specific provisions.

Stages in the Development of a DTA:

- 1) Negotiation – Usually carried out by representatives from the contracting countries i.e. officials from Ministry of Finance, Treasury or Tax authority.
- 2) Initialling – Terms of a DTA agreed to by the negotiating team is initialled and submitted for approval at the political level.
- 3) Signature – Once approved at the political level by both governments, it is formally signed.
- 4) Ratification – This completes the formal process of approval and involved embodying the DTA into each country's domestic law by parliamentary approval or regulation. The ratification instruments are then exchanged between the states.
- 5) Entry into force – This occurs on the date the DTA a legal obligation binding both states, normally after a specified number of days after exchange of ratification instruments.
- 6) Effective date – The date a DTA takes effect is normally specified in the DTA itself. The date a DTA comes into force may not be its effective date.

The table below provides a snap shot of the exemptions and reliefs granted under each of the concluded DTAs.

In determining such adjustment, due regard shall be had to the other provisions of this Agreement and the competent authorities of the Contracting States shall if necessary consult each other.

The competent authorities of the Contracting States shall settle the mode of application of these limitations by mutual agreement.

This paragraph shall not affect the taxation of the company in respect of the profits out of which the dividends are paid.

- (3) The term "dividends" as used in this Article means income from shares or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights which is subjected to the same taxation treatment as income from the shares by the laws of the Contracting State of which the company making the distribution is a resident.
- (4) The provisions of paragraphs 1 and 2 of this Article shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in any of the other Contracting States of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in any of the other States independent personal services from a fixed base situated therein, and the holding in respect of which the dividends are paid is effectively connected with such permanent establishment or fixed base. In such a case, the provisions of Article 7 or Article 15, as the case may be, shall apply.
- (5) Where a company which is a resident of a Contracting State derives profits or income from any of the other Contracting States, no tax may be imposed on the beneficial owner in that other State on the dividends paid by the company except in so far as such dividends are paid to a resident of that other State or in so far as the holding in respect of which the dividends are paid is effectively connected with a permanent establishment or a fixed base situated in that other State, nor subject the company's undistributed profits to a tax on undistributed profits, even if the dividends paid or the undistributed profits consist wholly or partly of profits or income arising in such other State.
