

**CERTIFICATE
OF
FINANCIAL IMPLICATIONS**

(Made under Section 76 of the Public Finance Management Act, 2015)

THIS IS TO CERTIFY that the **THE ADMINISTRATOR GENERAL'S AMENDMENT (AMENDMENT) BILL, 2019**, has been examined for financial implications as required under Section 76 of the Public Finance Management Act 2015 (as amended).

I wish to report as follows:

a) Background

The Administrator General has recorded an increase in the number of estates of the deceased that are intermeddled with, to the detriment of the beneficiaries, especially minors. This has led to a rise in the cases that need the intervention of the Administrator General and yet the provisions of the Administrator General's Act, 1993 are too weak to support this. There is therefore need to amend the act to address this challenge.

b) Objectives of the amendment

The overall objective of the amendment is to revise the mandate of the Administrator General's Office in relation to the estates that can be administered by the Administrator General without recourse to the courts of law. The bill also seeks to scale up the penalties for the offences committed

under the Act for them to be more meaningful and deterrent as a way of minimising fraudulent activities.

c) The expected outputs and outcomes from implementing the amendments

The main outcome of the amendment will be the enhanced capacity of the Administrator General in administration of estates of the deceased and reduction in the fraudulent activities and the numbers of estates that are intermeddled with. Some of the expected outputs are listed as follows:

- i. There will be increase in threshold values of the estates that Administrator General will have the capacity to administer without recourse to courts of law; and
- ii. There will be stringent penalties for fraudulent activities in administration of estates of the deceased.

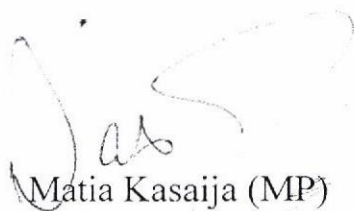

d) Funding and budgetary implications

The bills do not bear additional funding obligations to the Government and therefore all the implementation costs shall be met from within the funds that are available to relevant entities.

e) Expected savings and/or revenue to Government

There is no expected direct revenue or savings to Government resulting from this amendment.

Submitted to Parliament under my hand this ^{9th}..... day of ^{Aug}..... 2019
