LEADER OF THE OPPOSITION**

**ALTERNATIVE MINISTERIAL POLICY STATEMENT
GENDER, LABOR AND SOCIAL DEVELOPMENT
FY2022/23**

PRESENTED BY;

1. HON. ROSE FORTUNATE NANTONGO; DISTRICT WOMAN REPRESENTATIVE KYOTERA; SHADOW MINISTER FOR GENDER, LABOR AND SOCIAL DEVELOPMENT. 
2. HON. HILLARY KIYAGA; MP MAWOKOTA NORTH CONSTITUENCY; SHADOW MINISTER FOR CULTURE AND PERFORMING ARTS 
3. HON. FRANK KABUYE; MP KASSANDA SOUTH; SHADOW MINISTER FOR YOUTH AND CHILDREN AFFAIRS

MARCH 2022

EXECUTIVE SUMMARY

The Ministry of Gender Labor and Social Development is mandated under Chapter 4 Articles 31-40 and Chapter 16 Article 246 of the constitution to protect and promote the rights of vulnerable population, to address gender inequalities, to ensure cultural growth, labor and employment as well as community mobilization and empowerment.

This Alternative Policy Statement is presented in response to the Ministerial Policy Statement for FY2022/23 presented to Parliament by Minister of Gender, Labour and Social Development, Hon. Amongi Betty Ongom. The analysis under this policy statement utilized data from the National Budget Framework Paper FY2022/23; the Third National Development Plan (NDP III 2020/21-2024/25); the second budget call circular among others.

Gender sector currently has many running programs and target groups; but we shall prioritize the; Women; Youth and children; older persons; workers; and those employees in the Arts, culture and Creative sub sector. In the current program budgeting, the sector contributes to three programs of the NDP III namely; Human Capital Development; Community Mobilization and Mindset change; and Administration of Justice.

Therefore, in accordance with Section 6E (4) of the Administration of Parliament (Amendment) Act (2006), Rules 14(4) and 147 of the Rules of Procedure 2021, this Alternative Policy Statement for Gender, Labor and Social Development highlights policy directions of the Office of the Leader of Opposition.

LIST OF ACRONYMS

APS	Alternative Policy Statement
BFP	Budget Framework Paper
CHESASE	Chemical Safety and Security
EOC	Equal Opportunities Commission
ESP	Expanding Social Protection
FY	Financial Year
GBV	Gender Based Violence
LG	Local Government
MFPED	Ministry of Finance, Planning and Economic Development
MGLSD	Ministry of Gender, Labor and Social Development
MPS	Ministerial Policy Statement
MTEF	Medium Term Expenditure Framework
NBFP	National Budget Framework Paper
NDPIII	Third National Development Plan
NSSF	National Social Security Fund

URBRA	Uganda Retirement Benefits Regulatory Authority
UWEP	Uganda Women Entrepreneurship Programme
YLP	Youth Livelihood Program

Key Emerging Issues

- i. The non-existent public service pension scheme
- ii. Implementation challenges of the Senior Citizens Grant
- iii. Policies addressing social protection are generally blind to the informal sector
- iv. Lack of a minimum wage for public officers
- v. Human Organ trafficking and unregulated, poorly managed labour externalization
- vi. Struggle for PWDs to access special needs education
- vii. Post COVID-19 recovery plans exclude the culture and creatives sector
- viii. Inadequate resource allocation to the sector
- ix. Lack of a separate ministry for culture

Key Alternative Policies

- i. Liberalization of the pension sector
- ii. Develop a supplementary budget to offset SAGE grant arrears
- iii. Adjusting the existing programs, policies and mechanisms to the informal sector
- iv. Table a sectoral Minimum Wage Bill, 2022 with a specific sector review or focus
- v. Develop the Anti-Human Organ Trafficking Bill, 2022
- vi. Establish a national strategy on identification, tracking and referral of human organ trafficking and illegal labour externalization victims
- vii. Develop and popularize comprehensive safe migration policies in Uganda
- viii. Equip existing schools with facilities for children living with disabilities
- ix. Incorporate post COVID-19 recovery plans to the culture, arts and creatives sector
- x. Ensure adequate resource allocation to the arts, culture and creatives sub sector to match its contribution to the national GDP contribution
- xi. Government to create a separate and well-resourced ministry of culture

CHAPTER 1: BACKGROUND TO ALTERNATIVE POLICY STATEMENT

1.1 Legal Provisions for Presenting the Alternative Policy Statement

In accordance with Section 6E (4) of the Administration of Parliament (Amendment) Act (2006), Rules 14(4) and 147 of the Rules of Procedure 2021, this Alternative Policy Statement for Gender, Labor and Social Development highlights policy directions of the Office of the Leader of Opposition.

1.2 Sector Overview

Gender sector currently has many running programs and target groups; but we shall prioritize the; Women; Youth and children; older persons; workers; and those employees in the Arts, culture and Creative sub sector.

Aware that majority of Uganda's population are young people¹; with 400,000 Graduates per year; 83% of Uganda's young people are unemployed². This should have been a very worrying issue worth prioritization but that is not the case. Unfortunately, there is withdraw or transfer of the Youth Livelihood Programme (YLP) Funds and Uganda Women Entrepreneurship Programme (UWEP) from Gender to the Parish Development Model (PDM); and even the few proposed programs like the Graduate Volunteer scheme and Green Jobs are not inclusive enough to have a wider coverage that depicts the national picture.

Whereas the 2015 National Social Protection Policy recognizes state's obligation to protect persons across the life cycle (children, youth, adults and elderly); there is lack of a holistic approach to social protection as it is covered in piece meals. SAGE for Older persons still has issues where; (i) 270, 203 beneficiaries still demand their SAGE arrears worth 36.2 billion for the fourth quarter of FY 2020/2021 that has not been prioritized; (ii) lowering the age of beneficiaries from 80 years to 60 years has not been rolled out.

Whereas a Cabinet paper was developed on implications of lowering the age; it has never been presented to Cabinet³. Additional 404.2 billion is required to cover 1, 509, 300 older persons above 60 years from the current 147.6 billion for the 358,420 older persons aged 80 years and above⁴. 54,559 older persons are not yet covered under SAGE because 11,000 are not registered under NIRA; and 43,559 are registered but have errors with their National IDs is a government weakness. 25, 000/= is also insufficient to meet the basic needs currently. The

³ Uganda Parliamentary Forum on Social Protection, 2022. Position paper on Social Protection Financing.

⁴ Ministry of Gender, Labor and Social Development, 2022. Updates on the progress of implementation of Expanding Social Protection.

consistent funding gaps towards SAGE and poor release performance has presented some implementation challenges. Currently, there is a total of sh38bn in arrears for the FY2020/21.

Under Culture, Arts and Creative sub sector; there is still *lack of a national database for all artists in Uganda; lack of proper structured economic empowerment/ talent development programs; and lack of regulations and mechanism for implementation of the Copy right law 2006.* In addition, the Budget allocation for FY2022/23 according to the MPS for the sector shows allocations only for the traditional leaders, yet the sector in its own is bigger than the traditional leaders.

PWDs Act 2020 was passed in Parliament but the Ministry has never done the statutory Instrument or regulations to have this law implemented which limits accessibility to equal opportunities to PWDs like in jobs as provided for by Sec. 9(6) of the same Act. In addition, due to the emerging vulnerabilities as occasioned by the coronavirus pandemic left many for example the informal sector workers and players in the creatives industry requiring deliberate interventions to make them more resilient against shocks and vulnerabilities.

Children with disabilities education continuity strategy has not been outlined in the MPS plans for FY2022/23 where the children with special needs like the deaf lack schools to continue their education. Access to Labor Justice has continuously topped the list of unfunded priorities in the sector where many workers are unlawfully terminated, NSSF not remitted, Medics get COVID19 or even die at work but not compensated, with others losing body parts but not compensated.

CHAPTER 2: SITUATION ANALYSIS OF MINISTERIAL POLICY STATEMENT

2.1 Budget Analysis

Vote 018: Ministry of Gender, Labour and Social Development

The total approved budget for Vote 018 Ministry of Gender, Labor and Social Development sector for the current FY2021/22 was UGX 211.01 billion showing a 28% increment from the previous FY2020/21. The increment in the sector budget is mainly attributed to the supplementary expenditure of 53.4 billion⁵ provided to the ministry as COVID 19 relief

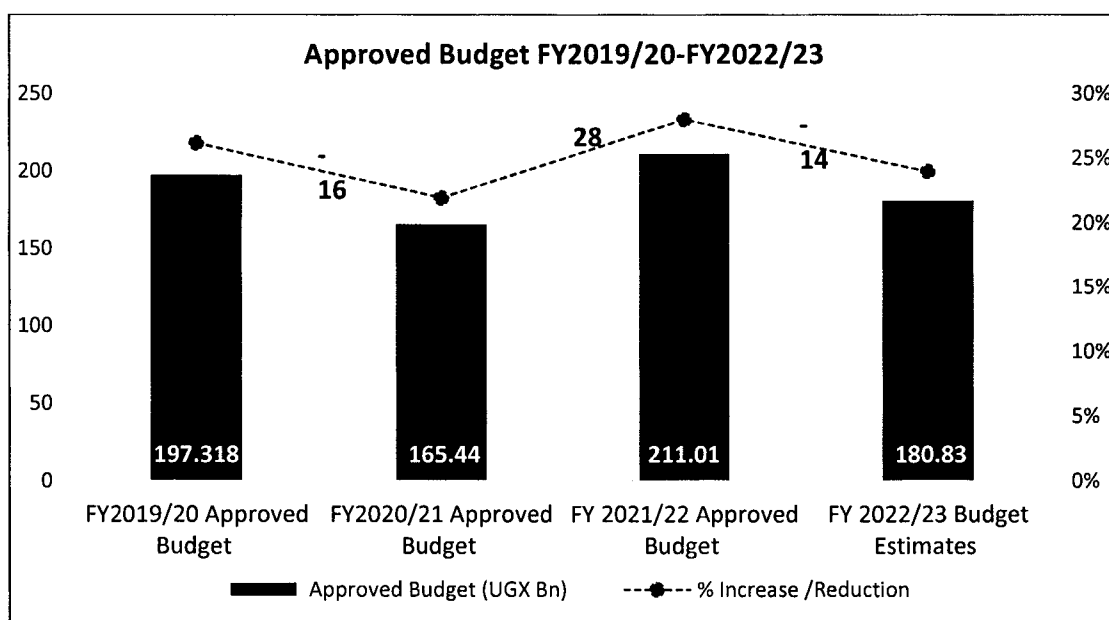

Figure 1: Approved Budget for Vote 018 MGLSD FY2022/23

Table 2 below shows that according to the MPS FY2022/23 the budget ceiling for the MGLSD has been reduced from UGX 211.01Bn in FY2021/22 to UGX 180.84 billion representing a reduction percentage of 14%; this budget cut was applied to Chemical Safety and Security (CHESASE), YLP and retooling components of the Budget. On the YLP program, a budget cut was instituted on all the Ugx 3.3 billion⁶ provision in the current budget of FY2021/22. In addition, a budget cut on CHESASE was instituted on all the Ugx 1 billion provision in the current budget FY2021/22

No funds were allocated to cover the Ministry arrears obligation. The above notwithstanding, additional resources totaling Ugx. 5.47 billion⁷ was added to the

⁵ MPS Vote018 Ministry of Gender, Labour and Social Development FY2022/23

⁶ Ibid

⁷ Ibid

ministry MTEF under community mobilization and mindset change. It should further be noted that much as the detailed additional allocation amounts to Ugx 7.8 billion, only Ugx 5.47 billion was provided in the MTEF thus a shortfall of Ugx. 2.33 billion

Table 2: Snapshot of Budget Allocations for Vote 018 FY2022/23 by Program

Category	Approved FY	FY 2022/23	% Change
	2021/22 (Ushs. Bn)	MPS (Ushs. Bn)	
Program: Community Mobilization and Mindset Change			
Wage	1.96	1.96	0%
Non-wage Recurrent	18.49	23.96	30%
Dev't	7.49	1.92	-74%
Sub-Total	27.93	27.84	0%
Program: Human Capital Development			
Wage	1.53	1.53	0%
Non-wage Recurrent	175.56	146.49	-17%
Dev't	1	0	-100%
Sub-Total	178.09	148.02	-17%
Program: Governance and Security			
Wage	0.1	0.1	0%
Non-wage Recurrent	4.88	4.88	0%
Dev't	0	0	0%
Sub-Total	4.98	4.98	0%
Overall Total	211.01	180.84	-14%

Source: MPS for Ministry of Gender, Labour and Social Development for FY2022/2023

In addition, there is a considerable reduction in the non-wage category of the ministry budget from UGX 198.83 billion approved in FY 2021/22 to UGX 175.33 billion for the MPS FY2022/23 representing a percentage reduction of 11%.

2.1.1 Sector Unfunded Priorities and Allocations

There are a total of Ten unfunded priorities presented in the MPS 2022/23 with a combined annual budget total amount of UGX 288.875 billion, available funds MTEF of UGX 140.34 billion and a funding gap of UGX 148.535 billion. The biggest

two unfunded priorities are strengthening social assistance to older persons (UGX 62.075 billion) and community mobilization and mindset change (UGX 15 billion)

Table 3: Sector Unfunded Priorities and the Funding Gaps

Key priority	Annual Budget (Shs bn)	Available Funds (MTEF) Shs bn	Funding Gap (Shs bn)
Community Mobilization and Mindset change	16	1	15
Strengthening Livelihood of Women and Youth	10	0	10
Support to Traditional Leaders	21.2	0.84	20.36
Externalization of Labor	9.85	0	9.85
Strengthening Social Assistance to Older Persons	182.775	120.7	62.075
Green Incubation	5	0	5
Enhancing livelihoods of PWDS	14	9.6	3.4
Enhancing livelihoods of Older Persons	10	3.8	6.2
Strengthening Occupational safety and health	1.65	0	1.65
Strengthening Institutional capacity	18.4	4.4	14
Overall Total	288.875	140.34	148.535

Source: MPS FY2022/23

Social Assistance Grant for Empowerment (SAGE) remains an unfunded priority in the ministerial budget. It should be noted that beneficiaries of the SAGE grant have not been paid for 8 months, while arrears for the 4th quarter of the FY2020/21 worth Ugshs36.08 for 270,203 beneficiaries remain uncleared by the Ministry of Finance Planning and Economic Development.

In addition, the externalization of labour program remains unfunded however, through illegal labor export and transplant tourism or human organ trafficking, many Ugandans especially (girls and women) have faced many consequences like; loss of lives; sustained permanent internal and external scars; psychological problems due to the torture among others.

2.1.2 600: Local Governments

MGLSD's approach is to deliver its services through a decentralized approach. The ministry provides the policy guidelines whereas the Local Governments play a key role in implementation especially at delivering community-based services. However, Vote600 LG for FY2022/23 budget estimates show only UGX 7.640 billion which is insufficient for community mobilization and human capital development mandated by the Local Government. The vote has a funding gap of Ugx 24.75 billion out of the requested Ugx. 32.388 billion.

It should be noted that resources have remained the same at the LG level where the bulk of work is concentrated yet community development officers are unable to effectively monitor Government programs such as YLP, SAGE and UWEP due to limited staffing levels

2.1.3 Sector compliance to the NDPIII

Table 4: Budgetary Alignment of Policy Statement to National Development Plan

Contributing Programs	NDPIII PAIP Projections FY2022/23 (UGX Billion)	MPS Allocations FY2022/23 (UGX Billion)	Variance (UGX Billion)
Administration of Justice	6,699	0	(6,699)
Agro-industrialization	0.3	0	0.3
Community Mobilization and Mindset Change	24,281.00	27.84	(24,253.16)
Development Plan Implementation	100	0	(100)
Governance and Security	3,319.00	4.98	(3,314.02)
Human Capital Development	731,875.70	148.02	(731,727.68)
Private Sector Development	750.00	0	(750)
Regional Balanced Development	870.00	0	(870)
Sustainable Energy Development	6.00	0	(6)
Grand Total	767,901.00	180.84	-767,720

Source: NDPIII & MPS FY2022/23

Based on the allocations in the MPS none meets the NDPIII PAIP projections for FY2022/23. The ministry is supposed to contribute to Nine (9) programs of the NDPIII, however only 3 (three) programs in the MPS FY2022/23 have been allocated funding. Noticeably even the programs in the MPS allocations for FY2022/23 do not meet the NDPIII target for FY2022/23

CHAPTER 3: EMERGING ISSUES AND PROPOSED ALTERNATIVES

a) The Non-existent Public Service Pension Scheme

The current Public Service Pension Scheme is a non-contributory, pay-as-you-go retirement benefit scheme financed directly by the tax revenues from the consolidated fund⁸. The pension arrangements are computed on the basis of length of service and the salary at the time of retirement.

Aware that the current scheme, is fully funded by the tax revenues, Employees of Government have no known pension saving in a Fund or Scheme anywhere. Their respective benefits paid out at retirement are generated from the budget of the year they retire in. Future tax payers have the burden of raising pension funds for retiring public officers. This reduces the fiscal space for future spending on other priorities of Government.

Cabinet in July 2020 approved the creation of the Public Service Pension Scheme on similar terms like the National Social Security Fund. Employees of Government would begin contributing 5% of their salaries while their employer (Government) would contribute 10% for each employee's salary to the scheme. The plan was to implement this Cabinet decision effective FY 2021/22. Unfortunately, this scheme has not yet been established. The Ministry of Public Service has not introduced the Contributory Pension Scheme Bill to parliament to enable the establishment of the scheme as directed by Cabinet.

Proposed Alternative

Liberalization of the Pensions Sector:

While the URBRA Act 2011 provides for multiple pension schemes, there has been limited employees' access, lack of liberty to join and monopoly of some schemes like NSSF over the private sector employees, and public pension scheme over civil servants. Some category of employees like civil servants has no scheme. The limited options given to workers with monopolistic tendencies by the schemes have continuously suppressed and exploited the workers views on how to manage their savings

Therefore, Government is tasked to establish a Public Service Pension Scheme that would enable civil servants to start making monthly contributions just like NSSF contributors. This requires Government to first raising salaries of all civil servants to a level where after deducting 5% from their salaries, each employee retains at

⁸ The National Social Protection Policy 2015

least the same take home as that before establishment of the scheme. Accordingly, Government should compute all outstanding pension for each employee at the time of migration to a contributory scheme. This computation should cover the period of service from date of 1st appointment and the pay scale that the officer currently is ranked in. Government should set a multi-year plan of paying these pensions into the accounts of the employees in the new scheme. This would help grow the pension sector in terms of liquidity and financial depth.

b) Implementation challenges of the Senior Citizens Grant

In November 2018, the Government made a decision to roll out the Senior Citizens Grant to all districts in the country starting with people who are 80years and above. The national roll out is currently on going and a total of 358,420⁹ older persons have been enrolled on the program. It was agreed that over the next few years, this age threshold will be brought down gradually¹⁰, until all older person who are 65 (60 for Karamoja) years and above are reached which has not been actualized yet.

In addition, there is inadequate budget provision where total government provision according to the MPS for the FY2022/23 is only Ugshs120.7 billion out of the required Ugshs 182.775 billion. This leave a shortfall of Ugshs 62.075 billion and if not addressed some beneficiaries will not be not be paid all their grant in the year.

Similarly, Social Assistance Grant for Empowerment (SAGE) remains an unfunded priority in the ministerial budget. It should be noted that beneficiaries of the SAGE grant have not been paid for 8 months, while arrears for the 4th quarter of the FY2020/21 worth Ugshs36.08 for 270,203 beneficiaries remain uncleared by the Ministry of Finance Planning and Economic Development.

Proposed Alterative

Develop a supplementary budget to offset SAGE grant arrears

For over 8 months, older beneficiaries of the SAGE grant have not been paid resulting into a huge funding gap by the MFPED. The arrears were accumulated during the 4th quarter of Financial Year 2020/2021. They were meant to be paid out to 270,203 older persons across 146 districts in the country. The finance ministry proposed in the budget framework paper to push the supplementary budget to FY2022/23 as domestic arrears which proposal was dropped by the budget call

⁹ ibid

¹⁰ Uganda parliamentary Forum on Social Protection 2021 Annual Report; Beyond the Senior Citizens Grant

circular. Failure to offset these arrears is a violation of older persons rights and entitlements which must be provided for by the government.

Therefore, Parliament needs to task the Ministry of Finance Planning and Economic Development to urgently address the payment arrears of Ugsh36.08b through a supplementary funding. In addition, there is need to ensure that the Ugshs62.075 billion funding gap reflected in the ministerial policy statement FY2022/23 for vote 018MGLSD be covered before passing of the budget. This is so crucial since donor funding to the program ends in June 2022.

c) Policies addressing social protection are generally blind to the informal sector

The National Social Protection Policy 2015 identifies expansion of contributory social security schemes to the informal economy as one of its priorities but with no stated paths on how to implement these. In addition, the proposed amendments of the Employment Act, 2006 only focuses on domestic and casual workers thus leaving out other informal sector occupations outside these two categories. Similarly, NSSF, the largest social security scheme is limited to the formal economy and covers employees who work in firms employing a minimum of five (5) workers¹¹. Worse still, private social security schemes are few and do not reach many of the individuals in the informal sector

Aware that majority of the Government programs implemented to social protection directly or indirectly to the informal sector are limited in coverage. For instance Social protection programs such as the third Northern Uganda Social Action Fund (NUSAF 3) has prioritized labor intensive public works and financial input in support to selected agricultural related programs. Private non-statutory social security schemes being regulated by Uganda Retirement Benefits Regulatory Authority (URBRA) such as MAZIMA retirement plan and KACITA provident fund directly work with informal sector participants. These programs are, however, limited in coverage and hampered with inadequate data in terms of knowing who the vulnerable are and where they are for better targeting

Proposed Alternative

Adjusting the existing Programs, Policies and Mechanisms to the Informal Sector

The Expanding Social Protection (ESP) is somewhat a step towards broadening the coverage of social protection schemes but there is a need to build on this by

¹¹ Madina M G, 2020; How Inclusive is Uganda's Social Protection Legal and Policy Framework in relation to the Informal Economy? Policy Brief

expanding coverage without formalization and reconceptualizing the role of formalization. This can be done better by using effective social protection as an incentive tool to encourage formalization¹².

Noting therefore, that a detailed impact evaluation of the existing policies and programs on social protection would inform future initiatives (programs and policies) targeting the informal sector. In this impact evaluation, there is need for detailed evidence in terms of baseline, midline and end-line comparisons of existing informal schemes. For this to be achieved social protection initiatives need to have an in-built impact evaluation measurement component.

d) Lack of a minimum wage for public officers

Due to Uganda's lack of an established minimum wage for all sectors in this country, there has developed a continuous tendency of manipulation of workers as seen in the various salary disparities in the public service¹³; even when the employees have the same level of education, qualification and experience. Different public officers are paid different salaries from different Ministries, Departments and Agencies yet are at similar levels of education qualifications and experience; with some being highly and timely paid while the others are lowly and delayed paid; thus, being unfairly remunerated. This not only demotivates the officers on low salaries; but also affects quality of service delivery; creates conflicts among employees; increases corruption tendencies; and also affects employee performance that in turn leads to poor quality service delivery.

Proposed Alternative

Table a Sectoral Minimum Wage Bill, 2022 with a specific sector review or focus.

We propose to table a Private Member's Bill titled "Sectoral Minimum Wage bill, 2022" that will regulate and propose mechanisms for periodic reviews and regulation of a minimum wage of Labor per sector depending on the existing financial circumstances, economic situation or even considering the country's GDP putting in consideration of other government programs like the National Development Plan, its Sectoral priorities and ultimate country's development goals. This minimum wage will differ per sector; and be reviewed periodically to match the existing economic situation.

¹² Madina M G, 2020; How Inclusive is Uganda's Social Protection Legal and Policy Framework in relation to the Informal Economy? Policy Brief

¹³ Equal Opportunities Commission, 2018. Study Report on Salary Disparities in the Public Service.

This Bill will guide Government Ministries, Departments and Agencies; non-state actors, Parastatals, private sector, and Local Governments on what criteria to use to determine an employees' minimum wage at a given point in time thus reducing on unreasonable salary disparities¹⁴. This Bill will propose a specific committee to be setup to review all these processes and establish timelines upon which this wage is effected and how enforcement will be done together with the Ministry of Gender, Labor and Social Development. This will not only reduce on employee manipulation; poor employee performance; but also promote timely qualitative service deliver and fulfillment of international labor standards.

e) Minimal Government involvement in key interventions to address Gender Based Violence

While Government through the MGLSD acknowledge the fight against GBV, there is minimal Government involvement especially in the most affected areas of Karamoja region, Northern Uganda¹⁵ among others. The bulk of work regarding interventions and documenting cases of GBV falls mostly on the work of CSOs and other Development partners. In addition, provision of shelters for victims and survivors of GBV is a critical role that Government is mandated to do of which greater responsibility currently lies on interventions by CSOs. In the areas most affected with GBV, CSOs set up a number of shelters which they fund and manage.

Proposed Alternative

Create synergies for collaboration than just regulation

We therefore recommend that Government through Ministry of Gender establishes independent well-funded programs specifically targeting resolving GBV cases throughout Uganda. Government should also first conduct comprehensive research about the causes, prevalence and possible solutions to the GBV that will inform the programming and interventions. It should also support, work with and collaborate with CSOs handling GBV; protect their space while regulating their operation in a friendly working environment.

Furthermore, although the Committee on Gender recommends that Government provides UGX 10bn¹⁶ through the Ministry of Gender in FY 2022/23 to establish and operationalize shelters for GBV victims; the report however does not mention

¹⁴ Equal Opportunities Commission, 2018. A Study Report on Salary Disparities in the Public Service.

¹⁵ Report of the committee on Gender, Labour & social development on Gender Based Violence in the Districts of Moroto, Amudat, Kapchorwa, Kween, Tororo & Jinja March 2022

¹⁶ ibid

whether proper accountability of the initially allocated resources to GBV shelters was given. We therefore recommend that a comprehensive audit be conducted to establish the value for money that was allocated to handling GBV especially to the Shelters before the re-imbursement of 10BN requested for by the Ministry.

f) Human Organ Trafficking and unregulated, poorly managed Labor Externalization

The ever-increasing poverty and unemployment levels coupled with under employment, low and delayed pay especially among women and young people in Uganda has exposed them to human organ trafficking as they search for greener pastures overseas in a bid to have high paying jobs with lucrative paychecks and benefits; good working conditions; instant solutions to home problems. While it is estimated that the illegal organ trade conservatively generates approximately \$840 million to \$1.7 billion annually¹⁷; this has come at the expense of innocent poor Ugandan organs trafficked due to Uganda's lack of employment opportunities; lack of balanced and affordable diverse investment opportunities and limited discriminative access to resources that has left young Ugandans vulnerable to exploitation as they search for casual work for survival¹⁸.

Through illegal labor export and transplant tourism or human organ trafficking, many Ugandans especially (girls and women) have faced many consequences like; (i) loss of lives; (ii) sustained permanent internal and external scars; (iii) psychological problems due to the torture; (iv) become drug addicts/users; (v) live at the mercy of traffickers that hold their travel documents and sell them into bondage; (vi) others forced to donate their organs in exchange for life; and affected our country's international relations and GDP; thereby warranting urgent sustainable interventions.

Proposed Alternatives

i. Develop the Anti- Human Organ Trafficking Bill, 2022

We propose tabling a Private Member's Bill 2022 titled "The Anti- Human Organ Trafficking Bill, 2022" that will set up different laws, regulations and procedures on how illegal organ trade or transplant tourism and will be prevented and handled in Uganda; how it can be detected; how victims or survivors are handled here and abroad; how countries will negotiate with victims' country to rescue and protect the citizens; how migrant workers' social protection will be handled;
